IDYLLIC HOLIDAY HOMES  
SURROUNDED BY NATURE

Our apartments have been named after local plants such as „Hufflatisch“ (Coltsfoot), „Wegwarte“ (Chicory)“ and „Rittersporn“ (Larkspur). With a little luck you can find these in the nearby „Freesenbruch“ forest. Just a short stroll through the forest, a nature-reserve, separates you from the fine sands of the Baltic Sea beach of Zingst. ZINGST names not only your holiday location, but also the tip of the Fischland / Darss / Zingst peninsula – the most idyllic stretch with its BEACHES, FORESTS, MEADOWS and the reknown Bodden.

OWNER-MANAGED  
WITH CARE AND COMMITMENT

We have paid special attention to our dear little ones. In the garden there is a playground with plenty to play with that the children are free to take advantage of. Little adventures are invited to explore the NEARBY FOREST. The fine sands of the beach can be reached with a short hike, where everyone can play to their heart's content, staying busy collecting ‚chicken gods‘ and building castles – to the refreshment of parents. The „big ones“ also will have fun with us. In Zingst and on the beach numerous cultural and SPORTING ACTIVITIES encouraging participation are offered.

As our family also includes a lovable dog, we are familiar with the particular concerns and needs when it comes to choosing the best vacation rental. In the end, our animals should also feel well, thus contributing to a gratifying shared recreation. With us, your FOUR-LEGGED FRIENDS are warmly welcomed!
